VOL. 49

Life leads us in many directions, sort of like the yellow brick road. At times we come to a fork in the road and we must choose : North or south? College or work ? East or west ? Travel or settle down ?

The decision is for a person to make alone. Be careful not to choose a road because of its ease or shortness of distance; but choose the road that will bring benefits in the future.

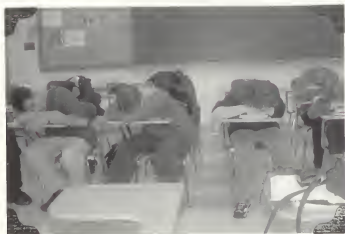

If we choose the wrong road, this too is life. One can correct his error, accept the situation or let that situation ruin his life.

But if you take your time - choose carefully and wisely (for the choices are yours), the longer may bear more hardship, but the rainbow at the end will glow brighter for those who work for their glories.

This road will lead us to a life of health, much happiness, love and prosperity. Just remember the road has just begun and the choices are yours.

# CHASIN' THE WIND

On Your Mark!

MVP

Mike Freeman

4Yr. Letterman  
Mike Freeman

"Not being able to compete for a score made me feel like we couldn't do anything in sectionals or in Conference as far as placing."  
-Wesely

Burnett-

Junior Mark Miller takes a deep breath as he rounds the third bend.

This year's Cross Country team started out with fourteen boys; however, the season ended with four boys and one girl. In Cross Country competition, a team needs to have five runners to score in a meet. Because CHS only had four boys and one girl, they could not score, but only compete for the experience.

On a better note, Senior Mike Freeman was voted Second Team All - Conference.

Coach Stigall said he had a tremendous group to work with and he's sad they didn't have the opportunity for team success. For next year Coach Stigall has three returning lettermen and hopes to have enough to field a team.

ABOVE: Row 1: Wesely Burnett, Mike Freeman, and Mark Miller. Row 2: Brain Duncan, Dedra Tisby, and Coach Stigall.

Senior Mike Freeman keeps his sight on the finish line.

# TEAM SPIRIT

**T**he '97 football team was a joy to coach," commented Coach Zimmer. He added, "We had great expectations, with the return of a veteran defense; however, a multitude of circumstances

forced a rebuilding year. The team of primarily underclassmen played valiantly against teams of superior talent. The foundation is set for a great '98." The team played hard and continued to hustle and sweat.

Above: Ryan Johnson takes a look at the wide receiver for a pass.

Below: The defense looks at the defensive playboard to see what they're going to do next.

First Row: John Bodnar, Jimmy Ross, Gerald Richardson, Jason Kasper, Tony Eriks, John Maugerhman, Matt Trammell, Jeff Hemphill, Chris Gray, and Cole Simmons.

Second Row: Jesse Wilson, Jeremiah Parks, Tony Reiser, Danny Hulen, Tony Hemphill, Jemont Dixon, Tony Brown, Steve Johnson, Phillip Zandstra, Eddie Cagle, and Crandle Shumert.

Third Row: Craig Aranda, Aaron Alzman, Steve Augustyn, Justin Benge, Mark Alexander, Mike Zimmer, John Reiser, Jason Dinkins, Glen Trimble, and Mike Dinkins.

Fourth Row: James Mullin, Steve Reed, Shawn Conover, Oscar Coleman, John Bodnar, Aaron Echols, Chris Lukawski, David Damjanovic, Larnell Bocot, Tom Toth, and Jesse Herron.

Back Row: Coach K. Courtney, Coach I. Zimmer, Cameron Jemerson, Anthony Ruiz, John Adams, Tim Duszynski, Rich Malden, Damien Bruce, Coach J. Pszonka, Coach D. Oswald, and Coach J.P. Walker.

Mr. Zimmer's hands go up to signal a touchdown.

## DIRECT FROM THE SIDELINES

The J. V. team came out strong, holding up their pride and their hearts. They have worked very hard and put a lot of time and effort onto the field. These boys deserve a lot for all of the hardships they have gone through. The JV's only win was against Whiting. We'll be expecting more in the future from them.

Above: Eddie Martinez runs as fast as he can for a touchdown!!

There's a pile up as our Warriors swarm on the Whiting quarterback.

# Improving the Basics

Toni McDaniel watches the serve as she waits to set the ball.

Cassie Cavell watches carefully as her opponent prepares to send the ball over the net.

This year's J.V. team was highly advanced. They knew the basics, but they had some improving to do. They set a goal to improve on their basics. The J.V. team knew what they had to do and got down to the nitty gritty in order to improve. Their goal by the first game was fulfilled.

The reason why this team was so successful was because of all of their hard efforts. They won more games than any other J.V. team had in a long time. This team was lead by captains: Candice Garmon, Toni McDaniel, and Cassie Cavell.

1st Row- Toni McDaniel, Elisavette Zarate, Candice Garmon, Shanda Scott, Shannon Johnson, and Kathleen McIntire

RECORD: 4-23

**N**ever holding back is what really counts in sports. There are those who are willing to go that extra mile, no matter what it costs, and they are the ones who succeed. Every athlete has experienced a heart breaking defeat or a promising victory at one time or another.

Although most athletes enjoy the sweet smell of success,

getting the win isn't always the most important aspect of the sport. With a losing record of 4-23, many teams would have been discouraged and given up. The Lady Warriors, however, stayed tough and tried to attain their goals. Each and every girl had one dedication: the team. All of the girls who were a part of this volleyball team gave

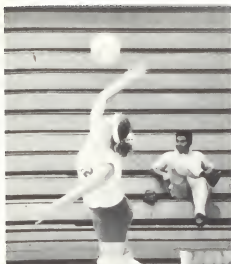

110% in everything they did. They not only put forth all of their heart in games, but also in practices.

The Lady Warriors volleyball team will be losing five great seniors: Patti Beehn #9, Amanda Brown #11, Nicole Jordan #6, Teleia Magee #4, and Nicole Thomas #12. They were a great part of this team and will be missed a lot.

**FIRST ROW:** Shannon Reiser, Rochelle Fuller, Mary Strickland, Nicole Thomas, and Amy Kwasniewski

# WARRIOR NETTERS

They did it! The Calumet Boys' Tennis Team clinched a winning record this season with a 3 - 2 victory at Lake Station. It is the first winning season in Boys' Tennis at Calumet since 1986. The Warrior Netters ended the season at 11- 8.

A few season highlights included: Defeating Hobart for the first time since 1986; defeating Griffith for the first time since

1985; winning five matches in a row; re-vengeing an earlier loss to Clark; and defeating Lake Station, who they had lost to in the regular season. Another highlight of the season was the addition of German foreign exchange student Julian Wucherpfennig.

Coach Tauber said he had a great bunch of boys with great attitudes and he enjoyed coaching this year's team.

This year Calumet's varsity boys basketball team had to overcome adversity and try to have a winning season. The varsity team had lost four key players from last year. These players were instrumental in winning and now the team was faced with reaching these goals without them.

The Warriors ended

the season with an 8-12 record. They fought hard all season. They lived up to their expectations and they showed some people they could do more. During the sectional game against Griffith the Warriors fought all the way to the end; however, they lost the game by seven, 53-60.

"My highlight of the season was hitting the game winning shot."

- Eric Echols-

"My personal goal was to play with the group, and I did."

# FOR THE LOVE

**T**he J.V. Warriors basketball team won their first game of the year against Morton. This first win gave the team a winning spirit and it continued throughout the season as they won seven more games. They beat Lake Station by thirty-one points 52-21. The J.V. Warriors also blew out Whiting by twenty points 50-30 and Clarck by twenty-four points 45-21. Coach Feeler said he liked working with these boys. tough once again for the Lady Warriors basketball squad, but the girls fought hard against the odds and managed to salvage a 3-19 record. Starting off the Sectionals with a win against Clark, the girls moved on to a more competitive game against Griffith, los-

Returning for her second year, Coach Dori Downing put a lot of hard effort and heart into the team and the game. The girls improved steadily throughout the season ending with a more competitive edge. She stated, "I think this was one of the most difficult seasons myself

and any team I've ever coached has been through. At the end of the season progress was made attitudes turned and I feel we've created a new sense of commitment."

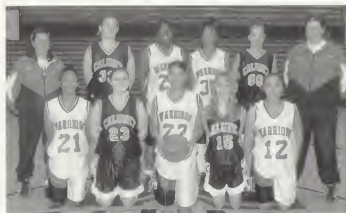

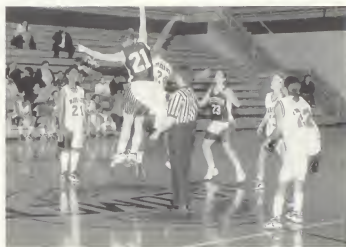

"We started to play as a team, but just a little too late in the season," replied junior Tina Reithel.

# The Ultimate Experience

The JV Lady Warriors did not have a successful season in the win column, but they all learned a lot about performing under pressure. It may not have been a great year for the Warriors, but the team agreed they worked very hard and they had a lot of fun throughout the season. This year was a learning experience for all of them.

Technique is an essential factor in any sport, but in swimming it is especially important. One technique flaw can add valuable seconds to a competitive swimmer's time. To be a strong swimmer on the CHS Swim Team, you must have the desire to succeed and work hard at improving your time. Taking a few seconds off your time is considered a huge improvement, even if you do not win the race.

In order to be competi-

tive, a swimmer must be committed to daily workouts. A typical practice for the Boys Swim Team consists of a team meeting to inform them of announcements and to answer any questions. Then they split up and stretch to prevent cramps and give elasticity to the muscles. They would then enter the water and swim anywhere from 3,000 to 7,000 yards a practice. Their practices are from 2:40 to 4:30. These practices were beneficial

for every swimmer on the team.

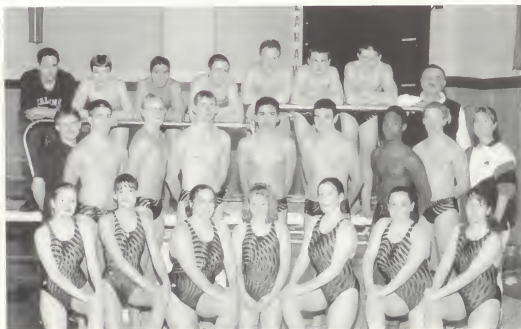

Calumet High School has a tradition of having a large and supportive team. This year was no exception. At the meet, the swimmers not participating in that particular race, helped by cheering on their competing teammates. With the strong leadership and enthusiasm, the Seahawks were sure to come out on top.

This season, the CHS Boys Swim Team broke

many records. Matt Ireland broke the record for the 100 meter backstroke and the 200 meter individual medley to add to his record breaking list of the 500 freestyle from last season. The 200 freestyle relay team also broke a CHS record. The members of that team are Scott Majors, Don Clinton, Aaron Alsmann, and Matt Ireland. They worked very hard to deserve this record breaking moment in history.

## C.H.S. Grapplers claim 10th Regional Title

The 97-98 wrestling squad set a new school record for the most victories in a season. They finished 23-8 in duals and 9-0 in the Lake 10 Conference. They won their fifth consecutive Lake 10 Conference Championship and their sixth straight Sectional Championship (22nd overall) in which 12 out of 14 men qualified for Regionals. They also won their first ever Dual Regional Championship by beating Gavit and Lake Central & qualified to challenge powerhouse Portage for the Semi-State Championship at Valparaiso. The wrestlers were ranked thirteenth in the final state poll and qualified eight men to the individual Semi-State where three qualified for State. Senior, Tim Duszynski culminated his career by placing sixth at the State Finals.

# Showing School spirit

Back in the day, cheerleading was a major asset in sports. The cheerleaders were the most popular girls in school and everyone wanted to be a cheerleader. Everyone stood behind the cheerleaders and showed their school spirit 100%. Things have changed, nowadays, it's hard enough getting girls to come out and become a cheerleader. Trying to pep up a crowd is very difficult, especially when nobody responds. These girls deserve a lot of credit. They show up after school and practice for about 1½ hours.

Cheerleading might just look like a bunch of hand movements and words but it's more than that. It's the ability to keep the team and fans excited throughout the course of the game. Coming to practice and learning new things is very difficult and at times can be very frustrating.

# FUELING THE FIRE...

The Warriorettes were constantly looking for ways to improve the squad's performance. Through the years they have improved a lot, especially with their little stunts. They were part of the halftime shows during both football and basketball season. They also performed at the pep rallies with the cheerleaders, showing their smiles and their school spirit. The Warriorettes still performed even with attendance low at most events.

The main focus of this year's tennis team was to attain at least a win in the sectional, in which they did accomplish. The practices, matches, and tournaments brought challenges and some disappointments, while trying to attain the team goals of being number one.

The girl's tennis team achieved another goal as the varsity team went nine wins with ten losses.

# Batter Up!

# It's How You Play The Game

Batter Up! It's that time of year again. Yes, baseball season was here and the Varsity baseball team was fired up and ready to go. The batter steps up to the plate, taps his bat on his shoes, and takes the sign from the coach standing at third base. The pitcher starts his windup and delivers the pitch... CRACK! It's a towering fly ball and it's going, going, going, gone.

At the end of the '96-'97 season, Coach Feeler stepped down. Therefore many adjustments were to be made. Finding a new coach and going by new rules were just some of the things that needed to be done. Chris Foss was named the new head coach and the process began. With a limited amount of experienced players, the task at hand seemed very difficult.

Practice after practice, after bloody knees from sliding, after calloused hands from batting, these guys would still never give a thought to quitting. This team was filled with many guys that had put forth a lot of heart and a lot of time into this season. Every game they played, every time they batted, and every time they tried to steal a base, they always gave it their all. That's why they were so successful.

ABOVE: Catcher, Mark Alexander waits patiently to throw down to second for any easy out.

MIDDLE:

LEFT: Aaron Pineda tries to fool his opponents with a little bunt.

BOTTOM:

MIDDLE: Coach Foss gathers the infield for a recap of what's going on.

RIGHT: Jimmy Ross covers his base to make an easy out at first.

# Jayvee Baseball

This Jayvee squad was quite successful despite the fact that they were low in numbers. At some point or another, some of them were seeing both Jayvee and Varsity playing time, which in fact can be very stressful. They overcame this obstacle and strived to be winners.

The J.V. Boys team began the season with a great start and ended the season with great expectations for the years to follow.

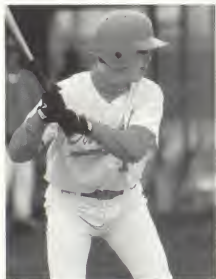

Coach Azbill was very proud of the way the team played throughout the season. The boys played hard and fought each game to the best of their abilities.

# MAKING THE PUTT

The Calumet Warrior golfers had a great season this year, also involving a girl on the team, Mandi Pendley. The golf team is based on a lot of team effort and great attitudes. They have great attitudes about their performances, confidence, and they also support one another in their work, during their games and their practices.

**T**he title for this spread accurately depicts the story for this year's track and field team. Made up of 20 tracksters, the team strived for the goals they set for themselves.

In sectionals Jodie Barham ran the 110

meter high hurdles placing third and eighth in regionals. For the girls, placing second in sectionals and fifth in regionals, Shawnel Bradley the 200 meter dash. Also, Shannon Johnson placed fourth in sectionals jumping the

100 meter low hurdles.

"It was a very gratifying year as the kids learned lessons for life and improved greatly," replied Coach Zimmer.

The team is only losing two seniors this year and hope to be

competitive in all their meets next year.

# DOWN TO THE NITTY GRITTY!!

**T**imes were tough once again for the Warrior softball squad, but the girls fought hard against the odds and managed to salvage a 2-23 record. The cold statistics are misleading, however, as the team lost many games to respected opponents. The girls improved steadily throughout the season, including playing as a team, gaining confidence, and believ-

ing that they "can" instead of "can't." Despite their contributions, the squad had to struggle to piece together their victories. The team played well in most games, but always seemed to have a bad inning in which the opposing team scored a lot of runs. If you take away that inning, they would have been into many more games.

# PEER MEDIATION & CALWEB

Have a problem? Go see the peer mediators. It's a group of specially selected students that help their fellow students with their problems. "A meeting usually consists of the two people that are involved in the problem, a teacher, and two peer mediators," Gina Romano informed, "then we try to come to a conclusion to prevent them from fighting for the rest of the year." Nick Armstrong says, "People would rather listen to solutions from people their own age than adults." Mrs. Gully began the Peer

Cal Web is one of the newest clubs at Calumet. It consists of a group of students who publish web pages. The sponsor of the club, Mr. Boufis, had this to say, "I think we're doing quite well. Calweb is a club of free spirits and intelligent young people. They're great." The CalWeb club originated in March of the 1996/97 school year when several students approached Mr. Boufis and asked if he would be their sponsor. The purpose of the club is to improve the awareness of the web.

# VICA

Tired of school, wish you could just get out and get a job, but your parents would kill you if you quit? That's what the students in the Vocational Industrial Clubs of America get to do everyday. The VICA program originally came

from the I.C.E. Corporation program. When asked about the program Mr. Portman, the club sponsor, replied, "I think the club is holding it's own, and I also think it's a very good program." Mr. Portman has been the club sponsor for the past 30 years.

# National Honor

(Left) "I have really enjoyed being the president this year. I think that a lot of good changes have taken place and I hope that they continue in the next few years. I also could not ask for a better sponsor. Mrs. Walters is always willing to do something new. She is very supportive of all the National Honor Society members." - *Michelle Gronendyke, President.*

(Right) "This has been the best year for NHS. I've been in this club since my freshman year and this year we've accomplished many things besides the usual stuff, we've helped tutor elementary students and even went on TV to take pledges for a telethon." - *Nicole Jordan, Vice President.*

(Above) "The National Honor Society is the most active club. From serving food at the Salvation Army to talking to the elderly at the nursing home, I have never seen a group of students so willing to participate. We all get along very well and we are open to each other's opinions. I could never ask for a more supportive group of people." - *Shanna Conover, Secretary.*

(Below) "I am very proud of everything that the NHS has accomplished this year. We've been more involved with the school system as well as the community. We tried new things and had fun while doing them. I think this year's officers have also set an example for next year because we put so much time and effort into our chapter." - *Amanda Brown, Treasurer.*

National Honor Society is a club of some of the most unique, brightest, and talented students that Calumet has to offer. The purpose of the club is to promote scholarship, leadership, service and character. The NHS also does many projects throughout the year to help the community. Some are helping out at the Salvation Army,

singing to nursing home residents and cleaning up the highways.

The Calumet NHS chapter began in 1957. It is part of a national organization and chartered through the National Honor Society. It's club name is Ora C. Strycker. Mrs. Walters has been the club sponsor for the past five years.

# Society

Below: National Honor Society students help the Salvation Army pass out food at the food kitchen during the holiday season.

As the 1998 school year came to a closure, I often thought of the busy, successful year the National Honor Society officers created. Each month they planned a myriad of service activities for our members to enjoy. This year was surely one that was successful and unique in every way. Our induction dinner and ceremony was our crowning achievement to the year. As I look forward to another year with a flurry of activity, I will always fondly remember the milestones we crossed together and that future groups can live up to the high standards that have been set for them by the Class of 1998.

# Giving Food, Time, Effort, and Care

Being Calumet's largest club, Student Council stays busy throughout the year with many activities.

In the fall there are Homecoming festivities to prepare, a state convention to attend, and appreciation to give to teachers and education during National Education Week.

In the winter they collect food, as well as warm clothes, for their annual thanksgiving food drive and winter wear

drive. Also Student Council involves the school in a Christmas door decorating contest for advisory classes.

When spring comes around Student Council is very busy planning an annual blood drive, holding prisoners in jail at the

fun fair, and having elections for the following year's class officers.

Besides all the activities Student Council is involved in, they also raise money for Riley's Caring and Sharing. Riley's Caring and Sharing is a

charity for the children at Riley's Children's Hospital. As you know Student Council fundraises throughout the year with such things as penny wars and computer matchups.

# Calumet's road to a Drug Free Community

**S**nowstorm is a group of kids who put a lot of hard work and dedication in planning The Snowstorm Event. The event itself is a weekend locked here at CHS. During the weekend there are dances, games, guest speakers, and a lot of fun. This year's event took place on March 13 - 15, and was a huge success. To make a weekend like this such a huge success a group of "staff" members spends about six months of their time planning and organizing. They attend two different meetings, one in which just "staff" attends to make sure everything is running smoothly, and the other is one "staff" hosts for CHS as well as other schools. Another thing "staff" attends in preparation of the event is three long five to six hour nights of training, where they learn leadership skills.

# Academic Clubs a great success at CHS!

This year The Academic Superbowl Team and The Spell Bowl Team were directed by two new sponsors, Mrs. Jones and Ms. Potoma. These two teams put in a lot of hard work, time, and effort studying for

their competitions.

The Academic Team prepares for six categories including Social Studies, English, Fine Arts, Mathematics, Science, and Interdisciplinary. Each team is asked a question and given a cer-

tain amount of time to discuss the question before the team captain gives the final answer.

Spell Bowl competitions are a little different. Two months before competition time The Spell Bowl Team starts study-

ing about two thousand words. When competition day arrives each member from the team is asked to spell words. For every word spelled correctly the team receives a point.

# The Show Must Go On!

## CHS Drama

Every year CHS drama club puts on three plays. This year, as always, the plays were very enjoyable.

The drama club opened the year with the fall play, And Then Their Was One. The cast members did a very good job keeping the crowd in suspense during this murder comedy and mystery.

Less than a month later the drama club put on the second play of the year, Reunion at Homicide High. This play was

another murder mystery with a slight twist to it. Before the end of the play they stopped and gave a chance for the audience to guess the killer and, if guessed correctly, they received a prize.

In the early spring the drama club ended the year with The Wizard of Clods. This comedy took the audience down the path of yellow broken tiles at Emerald City High.

(second row) Erica Cooper, La Toya Johnson, Fran Davis, Nick Garcia, Irma Villarreal, Joyce McNeal, and Chrisa Alexander. (third row) Lawanda Mitchell, Bridger Davis, Crandal Shumpert, April Bovenkerk, Crystal McNeal, and Caitrin Taylor. (second row) LaToya Johnson, Christina Trammell, Crandal Shumpert, Kelvena Ford, Carlotta Scott, Leducina Espinosa, ShaEtine James, Shanna Conover, and Donna Colon. (third row) Marlowe Jackson, Jessica Lockett, La Keisha Wadkins, Felicity Willis, Linda Crumedy, Dominique Clark, Daniel Ross, Shamia Smith, Jessica Matthews, and Va Landa Hobbs. (fourth row) Larnelle Bocot, Andrew Mathias, Jonathan Malchow, Nicole Jordan, Quinella Jackson, Jonathan Long, Justin Johnston, Priscilla Crumble, and Michelle Rucker. (fifth row) Ms. Mc Cray, Damarus Berry, Rashad Barnes, Aaron Echols, Albert Edwards, Andre Porter, Letwott Bocot, Chris Bewley, and Tony Brown.

The Gospel Choir enjoyed a very good second year. From the February Historical Extravaganza concert to the Mother's Day concert in May, the Gospel Choir gained 40 members. Both entertaining performances were organized by Ms. McCray with the help of all members. The concerts experienced great success with wonderful turn outs.

One of the two publications at Calumet is The Chieftain. This year fourteen staff members, worked on any of the six sections: Academics, Activities, Ads/Index,

Clubs, People, and Sports. All section people worked very hard trying to meet the many deadlines set by Ms. Green.

We also had four photographers who were

responsible for taking all the pictures requested by the sections.

# newspaper

Ever wonder where you can get the scoop on the latest news? Why the newspaper of course. Newspaper is a class consisting of editors and reporters. Along with the help of Mr. Boufis, the advisor of the newspaper, the students of the class make and put out the Warrior Press. Journalism has been available

as a course for the past forty-five years when it opened in 1952. In 1958 the Warrior Press won

the Hammond Times Best Newspaper in the Area Award. The purpose of the paper is to tell the students, as well as the staff of Calumet, what has happened in school or in the area. Mr. Boufis has been the club sponsor for the past two years. "The club needs dedication and self-motivated people to operate," Mr. Boufis stated. "Those are the kind of people we want."

# BUSINESS

**B**usiness Professionals of America, the future business men and women of America as some call it, was originally known as the Office Education Association and was organized in 1966.

The B.P.A. is known for it's stupendous leadership, citizenship, academic and technological skills. "Calumet had the fourth charter of all schools in Indiana," remarked Ms. Simic, the club sponsor for the past 25 years. "So we came in right in the beginning." The

club had done very well size-wise as well as state-wise. The club has maintained the same amount or increased it's amount of members for many years.

classes available

when Calumet opened.

The number of chorus students was low back in the 1995-96 school year, but has significantly rose over the past couple years and is still rising.

The club, whose purpose is performance and musicianship, has

been sponsored by Ms. Potoma for the past five years.

"It is always incredible to me," Ms. Potoma says, "when a group of people from diverse backgrounds can come together and participate in the creation of music."

# History

*History, to many, probably isn't a very interesting subject. But the simple words written in these books not only give us a look into the past, but a glimpse into our futures. In the last 222 years, our forefathers created our country, and now looking back at history we see how far we have gone, and how far we will keep going.*

Above: Mr. Manning talks to Mr. Maginot about a teacher meeting. Mr. Maginot serves as head of the teacher's union.

Below: Mr. Candiano replaced Mrs. Raby as this year's Psychology/Sociology teacher. He also teaches American History.

Above: Mr. Manning watches over his class while they do an assignment.

Below: Mr. Feeler grades his World History's class test.

Your success on the roads of the future is often determined by your accomplishments on the roads of the past.

We have four different history classes: American Civilization, Government/Economics, Geography, and World History. Students must complete one different course in history a year to stay on the right track.

Freshmen must complete a course in Geography. Geography is the study of the land and its physical features. Students learn the differences between different types of land, weather, climates, and land elevations. They learn how our land was created and different ways to take care of it.

Sophomores take a course in World History. They learn how different cultures began and how mankind evolved. They also learn how each group of people began to work for one common goal: freedom.

Juniors take a course in American Civilization where they learn how a few little British colonies joined together to unite into one great nation. They learn how this nation began as a weak country and became today's leading superpower.

Seniors must tackle Government and Economics before they receive their diploma. They learn how our country is governed and how to manage their money. They acquire many valuable skills which allow them to take the right step into their futures.

History is not just about the past, it is also about the future.

# SCIENCE

The road to a better life is brought on by technology.

To get ahead in life we rely on technology. This technology is brought on with computers, medicine, and other machinery.

Using this technology to our advantage requires us to gain a full understanding of the basic principles of science.

At Calumet we must complete two years of science to graduate. This can

include earth or physical science. Once these classes are mastered students can go on to learn skills in Biology I and II, Chemistry, and Physics.

Science will continue to be very unpredictable, because everything around us is constantly changing and when change is brought about, science must change.

Above: Mr. Vecchi has his students gather around him to watch him make the first incision on his pig. Yuch!

Below: Ms. Dodd proves that even though she is a teacher she can still have fun. What is so funny Ms. Dodd?

Above: As Mrs. Brown goes over all the current issues with her Chemistry class, her assistant, Nick Garcia, grades some paperwork.

Each year the Biology and Biology II classes have to dissect a selected animal for one of their labs. The Biology II classes have to dissect a mink while the Biology class dissects a fetal pig. The purpose of the lab is for students to gain general knowledge of human anatomy by seeing an animal's

anatomy system.

Each student was placed with a partner and given a week to explore his animals. Then they received worksheets to fill out.

Mr. Vecchi said everything went as planned and no one horsed around. Well, not that much anyway.

The results are in!

Above: Justin Spanier is eager to begin this experiment. See how nice his piggy smiles for us.

The math courses at Calumet High School are separated into two parts: general and college prep.

General math gives the students who most likely do not plan to go to college a practical understanding of mathematical principles.

The traditional college prep courses offered at Calumet are algebra, geometry, calculus and trigonometry. These courses prepare students for the ever increasing competition of colleges with an understanding of the areas at the high school level.

# Strength Beyond Strength

Calumet offers classes for those students with special needs. These classes allow the students to interact within an all- American high school setting. Great respect should be shown toward the students at Calumet for not discriminating toward these students with special needs.

*The most important language we use for communication is English, the language that unites this "melting pot" called the United States. Students at Calumet must complete four years of English to graduate.*

*We have two types of English*

*classes, regular and honors. About 85% of our students are enrolled in regular. Honors is for students who want to excel at a quicker pace and receive an honor's diploma.*

*Students must read literature, act out plays, write stories, poems, and book reports.*

## Express Yourself

Calumet offers Art, Advanced Art, and Drawing/Painting. In these classes students learn basic principles of art while strengthening their own talents. Students compete in contests throughout the year for various organizations. Some of the art work is displayed for all the school to enjoy.

Mrs. Whitcomb points out what Shaula Fritsch should do to improve her painting.

## Whip It Up

Food classes teach students about nutrition and the importance of kitchen safety. Students explore the world of cooking

and baking throughout the school year. Students learn what it takes to make a meal: pre-planning, ingredients, preparing, and, finally, eating. Many students find the class useful for the rest of their lives.

Mrs. Weakland goes over nutrition with her fifth hour class.

## Let's Get Physical

In order to do their best in classes or at work, students must be physically fit. One year of physical education is required of all Calumet students. Some students opt to take a second year or to enroll in the weightlifting class that is offered. Our students also use physical education classes to prepare for their roll on the many athletic teams offered.

Mrs. Gabrieli talks about the day's activities with her class.

# Industrial Arts Silent All These Years

When we are faced with the real world we may not find the answers to our questions in a text book. For life you may need hands-on skills to succeed. Not many of our classes offer these hands-on skills; but in a little corner of the V- hall there is a group of classes built to teach these trades.

Woodshop teaches you to distinguish types of woods as well as operating machines cor-

rectly and safely. You also learn to put together projects correctly and to clean up after you are finished.

Machine shop teaches you to properly handle the metal lathes while working with metals and you learn to keep the area clean. You also learn spotwelding and how to use hand tools as well as your machines.

Welding teaches you to distinguish different size electrodes and cor-

rect amperage on your machines. You learn to acknowledge different sounds to tell if you're welding your beads too fast or too slow. You will learn the four types of welds: horizontal, vertical, overhead, and flat welding.

Residential electricity teaches the physics principles in a practical manner. This class takes many hours of intense bookwork as well as work on breadboards.

The breadboards allow students to hook up wiring, boxes, switches, power panels, and light fixtures safely.

Going through the roads of industrial arts isn't always easy, and you aren't given the credit that you deserve. You may be called a slacker or told you are taking the easy way out. Industrial arts isn't an easy way out; sometimes the hard road ends in better success.

# Administrative

Each of us rely on someone to help us when the road gets tough. At Calumet our support system lies within our administrative staff. Our staff is made up of Mr. Broome, Mr. Sanchez and Mr. Bunda.

Mr. Broome came to us from Portage High School, where he served as assistant principal for the senior class. Mr. Broome came to Calumet to make changes, and he did. He set ground rules for us and oversees the school system as well as dealing with basic problems of the school. Mr. Broome's famous quote really summed up this school year, "We are all in this to-

gether."

Mr. Sanchez serves as our assistant principal. His duties are to discipline students when necessary. Mr. Sanchez advises Mr. Broome whenever necessary. He is always ready to help students solve disputes and problems.

Mr. Bunda shows true loyalty to Calumet, he has served at Calumet for approximately four years as Athletic Director. Mr. Bunda is responsible for the day to day operation of Calumet's Athletic Facilities. He is in charge of all athletic extra curricular programs, Cheerleaders, Warriorettes, officials, and supervisors.

Sometimes the completion of the road of life depends on your leaders.

Above: Mr. Broome is one of the many new changes that have taken place this year. He says he enjoys working at Calumet.

# Administrative Assistants

Left: Mrs. Taylor, Mrs. Traicoff, Mrs. Hernandez, and Mrs. Johnson laugh at Mrs. Brooks as she almost falls. This is just another crazy day for the office staff.

No road has ever been built without assistance. The road to education doesn't differ in any aspect. No matter what they are put through, Calumet High School's office staff reports to work every morning with smiles on their faces. They even manage to show little smiles when they have to suspend a student for ditching one too many days.

The staff has to manage paperwork, school income, attendance, and all other business taking place within the school. The staff not only includes office staff members, but also the school board, the athletic office and the guidance of-

fice. The office staff keeps track of students' attendance records and the school's paperwork as well as the school's funds. The guidance office keeps track of the students' schedules and are there to help if any students have a problem. The school board makes any major decisions that will affect our school as well as setting up our school policies. Anything dealing with athletics is brought to the athletic office. This includes records, physical forms and information about participation in sports. Each division of our administrative assistant staff works hard to keep our school running.

Calumet requires students to take a semester of Introduction to Business to help them learn what skills are needed for today's career force. This class also teaches basic fundamentals such as filling out employment applications and balancing check-books.

A semester of Keyboar-

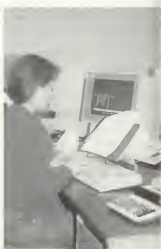

ding is also required at Calumet. This class teaches a basic understanding of the keyboarding, formal and informal letter formatting, as well as increased typing speed.

Calumet offers many other business classes to help students further prepare for a business career in many occupations.

**Justin Thompson:** The most important thing that happened is my junior year. I think everyone was drawn closer, realizing that we should stick together. I plan to do my senior year at Calumet and keep in touch with everyone and go on as one of Calumet's best artists.

**Deadra Tisby:** My best times so far have been spent with my friends at school activities, such as dances and football games. Keeping my grades up and going out with my friends is what I have left to do.

# The Tradition Ends

After two straight years of tie games, the Seniors/Sophomores finally pull out a victory in the Powder Puff game, 26-6. The game started out fast and hard with a 40 yard touchdown by the seniors and sophomores. The game continued to go the seniors/sophomores way throughout the game. The freshmen/juniors tried to come back with a touchdown late in the third quarter but that was their only score of the game. While their fellow seniors scored touchdown after touchdown, the senior guy cheerleaders yelled encouragements and approval.

After a long, hard fought battle on the field, everybody made their way to the bonfire. After a short wait for the blaze to get going, the festivities continued with singing and cheering for the homecoming game which was played the next day.

## A Showcase of Spirit

There was a great display of spirit shown at Calumet's homecoming this year. Many people joined in all the special events. Unfortunately some spirit week activities were taken away because of IS-TEP, but that didn't stop

seniors from dressing up. The Class of '98 won the hall decorating contest this year.

Everyone on the 1997 Homecoming Court was excited about the special night! The King and Queen candidates were Nick Armstrong and

Alaine Bank, Tim Duszynski and Carly Smith, Bobby Owensby and Nicole Thomas, and Mark Stevenson and Velveta Wilson. At half-time Alaine Bank was announced Queen while Nick Armstrong was announced King at the

homecoming dance. Although the Calumet Warriors were defeated by the Whiting Oilers, we had some outstanding plays by our football players. After the game everyone kept up their spirit by attending the homecoming dance.

# And Then There

**A**nd Then There Was One\* took place on October 14, 1997. It was a one act audience participation comedy and mystery. This was the first play of 1997 for the Calumet students. The play was about people receiving an anomanyous letter telling them to stay on an island for a week. While there, they were to solve a mystery. They mysteriously faked their own deaths, but, at the end, all came back unharmed trying to kill who they thought the real murderer was.

# REUNION AT HOMICIDE HIGH

Reunion at Homicide High" was the second performance of the year. This mystery play was held on Wednesday, Nov. 5, 1997. It was about the reunion of the class of 1967 at Tiretown High. Bondo had been mysteriously murdered and at the class reunion they were trying to figure out who killed him because it had never been solved. During the reunion they came to the conclusion that Boonie, Bondo's wife, had killed him because she did not want her son to become just like him. At the end of the play the audience was able to participate by guessing who the killer was. They had to write down their vote and turn it in to an usher, receiving a prize if they were right.

# "You Were Meant for Me"

*Calumet's annual Turn-a-bout, where the ladies asked their favorite gentlemen to the dance, took place on November 22, 1997. This year's theme was "You Were Meant for Me" by the artist Jewel. The colors chosen were purple and silver which looked great with the decorations. The dance was hosted by our own Band Boosters, and Anna Blackman took this year's pictures. Half of the attendees went out to dinner afterwards making sure to get in before curfew. The other half went home because they were too tired of dancing all night long.*

# A Night of Ghoulish Fun

The Calumet Halloween Dance was held on October 22, 1997. Many people came dressed in costume to join in all the fun. There were many participants in the annual costume contest. Two old ladies, Mandy Pendly and Paula Wheeler, won the contest. The band boosters put the dance on this year as they do every year. Everyone had a great time dancing and enjoyed spending time with their friends!

Different students received ribbons for the Outstanding Student Award on Tuesday. Many students participated, Wednesday, on teacher exchange day. Thursday officers of different clubs were given ribbons. Teacher Appreciation Day was Friday so student council gave the faculty doughnuts and milk that morning before school started. Many people were recognized this year for different accomplishments.

# Red Ribbon Week

**R**ed Ribbon Week symbolizes the never ending fight against drugs. This year we continued to inform people about the harm drugs can do. All of the art classes had a poster making contest. There was also a play showing why a drug free life is the way to live. After the play there was a candle light walk to fight the use of drugs. Some students wore red ribbons to show that the choice for them was to be drug free. Hopefully we can continue to make progress in the fight against drugs.

# Going... Going... Gone...

*The Yearbook class sponsored a "worker" auction this year. There was a fairly good turn out of participants and eager buyers. We had approximately 30 participants of each gender to auction off during both lunch hours. The "workers" had to meet their "owners" at their class, carry their books to the next class, and carry their lunch tray to their lunch table for a day.*

# Romance Dance

Having hosted the Valentine's Dance for two years, the class of 1999 once again invited the school to their semi-formal dance. This year's dance was held on Thursday, February 12, 1998.

Each year an election is held to crown the kings and queens of the dance. Around 8:30P.M. all the can-

didates lined up for the announcement and crowning by Gina Romano. There were four kings and four queens, one from each class.

Everyone danced to the music supplied by George Such. After the dance most people went to get a bite to eat and continued to enjoy themselves with all their friends.

# Blood Drive

This year's blood drive was a great success. We gave 68 pints of blood to the Heartland Blood Centers. There were also seven deferrals-or people who tried to give blood but couldn't due to sickness or lack of iron in their blood.

The donation was sponsored by the student council, who gave up their day to work the blood drive. Their day consisted of helping people who were too sick to make it back to a table safely and to seek out people who signed up and then conveniently forgot when it was their

turn to donate.

One of the nurses said that Calumet is one of the highest blood donating schools in the area. This is surprising considering that we are also one of the smallest schools in the area. Every year we seem to pull through and most people find the time to give blood for those who need it. Amanda Brown stated, "Considering all the illnesses going around I think that we had a good showing."

Thanks to all the people who donated and helped to organize the blood drive.

# College and Career Fair

**C**alumet's first College and Career fair took place on March 26, 1998 during advisory. There were 16 colleges and technical schools, along with 14 career choices, from Indiana and Illinois.

This was the first year for the school to put on

a positive educational future program. It will be done for years to come.

Students say this will give them a good idea of what their future will be and what to do in high school to get in the college of their choice.

The Wizard Of Clods was performed by the Drama Club on April 1, 1998 at 7:00 in the school's auditorium.

The play was about a girl named Dorothy who was brought to Emerald City High School by a tornado, which is very similar to "The Wizard of Oz." With the help of the students, she finds her way home through many courses and the students get what they want, which is a better school.

# One Enchanted Evening

Every year prom is the talk of the school for the whole month of April. The night comes and the girls, even the guys, become nervous.

The class of 1999 held Prom '98 on Saturday, May 2, 1998 from 6:30 to 11:00. The event was held at The Dynasty Banquet Hall in Hammond. Mint green and lilac were the chosen colors and decorations were provided by Ruffles Balloons and Flowers. One Enchanted Evening was

the theme and the title song was "Unchained Melody."

Justin Bengé and Mary Strickland were crowned king and queen. The night gave memories of dancing, music and fun for all who attended.

Post prom activities had everyone heading to Turkey Run, Great America, Chicago, and other choice locations. Even with gray skies, students would not let the weather alter their fun weekend!

Seniors traveled to Chicago, Illinois on Wednesday, June 3, 1998. The seniors began their day of festivities at 7:30 in the morning and ended around midnight. The day included a movie at the I-Max Theatre on Navy Pier, a bite to eat, a stroll around Chicago and Navy Pier, and shopping. Groups did their own thing - catching up with each other at the Sears Tower before heading to the Chicago Opera House to see Phantom of the Opera.

# GRADUATION '98

*Left: Michelle Gronendyke, Patty Beehn, Shana Conover, and Justin Brown listen intently to Nicole Jordan's speech.*

*Middle Left: As to say, "Raise the roof, I'm outta here!" Brandi Westbrook raises her hand to her family and friends.*

*Middle Right: Ryan Greene, Norman Relthel, and Bobby Owensby are on the edge of their seats as Jason Wilkerson speaks.*

*Bottom Left: The senior class decided to thank Mr. Jim Wadkins for all his hard work by giving him a new briefcase; so Jason Wilkerson explains to the crowd the need for it, while Michelle Gronendyke hands it to him.*

*Below: Just to make sure he has really graduated, Larry deBies looks over his diploma.*

# EXCUSES

## For Being Late

Julian Wucherpleanig: *My bus did not pick me up.*

Brianne Dickens: *I was in Jail.*

David Peralta: *Car wouldn't start.*

Chuck Dodson: *Fell asleep in*

*another class and nobody woke me up.*

Amanda Marlow: *I had a nose bleed.*

John Bodnar: *I forgot where my class was.*

Nick Armstrong: *Gypsies stole me.*

Rich Maiden: *My shirt got*

*caught in my zipper.*

Amanda Ross: *We ran into a snow hill.*

Di Dawson: *Helped put out a fire.*

John Catizone: *I got stuck by a train.*

## For Being Absent

John Catizone: *Doctors or had to go to court.*

Timmy Duszynski: *Had the flu!!!!*

Tecia Magge: *I did not feel like going.*

Shannon McNair: *Missed the bus.*

Ryan Greene: *Went out of town.*

Rose Gromaire: *Kid had to go to the Doctor.*

Phillip Woods: *I couldn't find the building or I mean it is not SAT!!!!*

Mandy Avina: *I had a tummy ache.*

Rose Gromaire is giving her big excuse to our Art teacher Mrs. Whitcomb.

Chuck Dodson along with Larry Stone get their full hour in.

Shannon McNair is catching his ZZZZ's while class goes on. Wake up!!!

Jodie Barnham is wondering if his slick excuse worked to get him out of trouble.

Mark Stevenson and Tom Toth really are scared about being late for school, can't you tell !!!!

## For not doing Homework

Brianne DeBruler: *Too tired.*

Carrie Ross: *I was at work.*

Daniel Evans: *Not enough time.*

Nicole Thomas: *Left it at home.*

Tevin Gardner: *I did not understand the work.*

Adam Bigger: *I did not know how to do it.*

Crystal Majewski: *I just did not feel like it.*

Shawna Harris: *My daughter ate my work.*

Jodie Barham: *No pencil.*

Lynnette Smith: *My dog ate my work.*

Chris Garrett: *I left my homework at my Grandmother's house.*

Josh Lugar is working hard on the job, so we can see why his homework is not done.

Jenny Socha looks like she's occupied in a letter instead of her work. Don't get caught!

Scott Majors is doing his teacher a trick to get out of trouble for not doing his homework.

Melissa Reed "Keep out of trouble and do your work so you can walk with your class."

Crystal McNeal "Be independent — it will get you much further in life."

Susan Newbolds "To all underclassmen, you should really keep up with your work or you won't get anywhere in life."

Shanna Conover "Never let people tell you that you will not amount to anything. Do things to please yourself, not others."

Mandy Ayling "You don't get rewarded for doing what you are supposed to do."

Josh Lugin "Don't get caught doing donuts in the parking lot."

Brandi Felt "Be yourself."

Brandi DeBaule "Don't fight over boys and keep your head up. High school is not that bad. Keep smiling!!!!"

Daniel Evans "Make the struggle and you will succeed in life."

Ryan Greene "You made it this far, don't give up now. It's in your mind!!"

John Bodnar "Get out as soon as possible and don't let the man get you down."

Becky McMunn "Good luck!!!!"

Lynnette Smith "Underclassmen are all right and some are not."

Tom (Putter):

You're the best little brother any sister could ever ask for. As you walk out the doors after graduation you will realize that your life has just begun. I hope that we remain as close as we are today. Follow your dreams always, and may God bless you every step of the way. Congratulations!! Good luck and remember that I will always love you.

Your sister,  
Chris

*Our lost two years here at Calumet have given us so many memories! You're my high school sweetheart and I will never forget ya. As sad as I am that you will be gone next year, I'm proud that you're graduating! And who could forget the mark you've left in wrestling? Sixth place isn't first, but we know who the best mon is! Be proud of your accomplishments and begin to work for a future. Perhaps, a diamond ring? Ha! I love you, Honey, and I can't wait to start our life together!*

High school is a time of memories. I remember very few people even really having any kind of impact in my life. Now I am giving thanks to those people who have been there for me. To my brother and two sisters. I love you guys with all my heart. Our family is strong, and we will stay united forever.

To Brittany you were there when I need you the most. Thanks for every thing. Keep smiling because your inner and outer beauty will take you far in life you are truly a friend and I will remember you forever.

Nick Armstrong, I think of you as my best friend. You believed in me helped me get through this year. I wish you the best in life. And no matter who you happen to be with at the time, I wish you love and success in life. Happiness will be yours. Thank You.

Always remember homecoming. Jen, thanks for the dance. Prom will be a memory in which I will look back as one of my better times.

Allison, tears were cried but love remains. I have and will always love you. You changed me. You were my first love. No matter who I am with, I will always hold you in my heart, because true love is forever.

To the class or \*98\* it wasn't always fun but thanks for the memories.

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million (1990–2000) and is projected to increase by a further 1.5 million by 2020 (Office for National Statistics 2001).

There is a growing awareness of the need to address the health care needs of the ageing population. The Department of Health (2000) has set out a vision for the future of health care for older people, and the National Institute for Clinical Excellence (NICE) (2001) has published guidance on the management of common health problems in older people. The Department of Health (2000) also published a report on the health care needs of older people, which identified a number of key areas for action.

One of the key areas for action identified in the Department of Health (2000) report was the need to improve the health care needs of older people. This includes a number of key areas, including: (1) the need to improve the health care needs of older people; (2) the need to improve the health care needs of older people; (3) the need to improve the health care needs of older people.

the 1990s, the number of people in the UK with a mental health problem has increased by 50% (Mental Health Act 1983, 1993). The prevalence of mental health problems has increased in the UK, and this has led to a corresponding increase in the number of people with mental health problems who are in contact with the criminal justice system.

There is a growing awareness of the need to address the mental health needs of people in the criminal justice system. The Mental Health Act 1983 (MHA) provides a framework for the care of people with mental health problems who are in contact with the criminal justice system. The MHA requires that people with mental health problems who are in contact with the criminal justice system should be provided with appropriate care and support.

The MHA also provides for the detention and treatment of people with mental health problems who are in contact with the criminal justice system.
